MFEC hopes that CREWQ: Road To Gold will be a platform to discover talented Qatar youth, empower them via opportunities, mentorship and training given by skilled professionals, with the aspiration of nurturing the next generation of dance athletes that can shine on the world stage.

CREWQ Coaches program: Team recognize winning is important and strive for success, but also value the journey. Competitive dance shapes the confident and diligent leaders of the future. Dancers learn delayed gratification and that triumph is not an overnight or easy accomplishment. We use the challenges & disappointments that are natural in dance to build self-reliance, leadership & adventure to benefit the next generation of our community.
